and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I only use my tracfone mostly for emergencies and for short calls to and from my children about school, when to pick up, where, etc. and I don't think it is fair to charge all people a hike in service when some of us use the air time very little. That I don't own a regular cell phone and I rely on my trac phone should say it all. If I had to pay more \$ then I would probably not have a tracfone. Most of us don't have a lot of \$.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

jackie Denman
